

OKT Trailer meets with the world's giants...

OKT Trailer participates the 66th IAA Commercial Vehicles Exhibition...

OKT Trailer is at Hannover IAA Commercial Vehicles Exhibition for a third time...

OKT Trailer participates the 66th IAA Commercial Vehicles Exhibition which brings together world sector of commercial vehicles and is the largest trade exhibition of the sector, with two different products with unique features.

It presents 38,000 lt. capacity aluminium conical tanker semi-trailer which is indispensable in the fuel and chemical logistics, with unique OKT features like transverse joints, solid plate body structure, the minimum number of combinations of points that allows the use of high strength and long life, ADR certified, with 5 compartments to the overseas users liking.

OKT is constantly renewing its product range with innovative designs that responds to the different needs and expectations of customers, prevents the loss of merchandise, protects the environment and holds the security in the foreground. OKT technology will be introduced at the exhibition stand where visitors will have an opportunity to examine the different product models in details.

OKT Trailer General Manager Mr. Hakan Maras; "We are quite proud to join to the 66th IAA Commercial Vehicles Exhibition. We participate in overseas trade exhibitions not only as OKT Trailer, also on behalf of the Turkish Trailer Industry. We recognize that we are strong when we are together. We make sustainability a priority as OKT, in trade exhibitions we participate, especially in international trade exhibitions and we try to take our place at the exhibition to provide the growing technology of the sector closer to the interested masses.

The quality of our products is at the world standards today; in this way we are a Turkish brand that meets different needs and expectations in over 35 countries worldwide. To announce our brand and name of our country in new markets is one of our highest priorities; we give direction to our new projects in this regard."

Mr. Maras indicated that they work to produce ideas which will make a difference in the industry and said; "We rely on innovative, solution-oriented production concept for end users who pass almost all of their work time on vehicles, to work with safer, more performance superstructures and trailers. Our technical team is shaping our designs within the framework of our national/international standards and legal regulations, with benchmark analysis and the feedbacks obtained from customer empathies. Our goals of corporate success are not separate from our goals of societal success and we are taking upon ourselves to create permanent values for all our stakeholders."

About OKT TRAILER

OKT TRAILER is established in 1983, have been serving customers at home and abroad over 30 years. In 1989; by the production of first tipper with rear tilting and double cylinder on sides, introduced the industry with concept of "user friendly product".

In 1991, the first factory investment made by OKT TRAILER; with the production of American-type tipper, standard tipper vision is changed and attracted intensive attention by customers. In 1994, OKT TRAILER broke new ground by producing first semi-trailer tipper with 2000 m² additional plant investment.

OKT TRAILER that has been continuing its growth with the tradition and values in accordance with acquired vision had reached totally 18,000 m² factory area with 10,000 m² indoor area in 2000.

Product range is expanded by aluminium tank and aluminium dry bulk trailer with using its experience on aluminium tipper production.

OKT TRAILER's overseas sales have been rapidly advancing and globally recognized ADR Type Approval is achieved for the first time in 2004 with the cylindrical Aluminium Tank Semi-Trailer. Today, OKT TRAILER directs the industry with new designs meeting the needs of on-truck and semi-trailer tanks in conformity with regulations about the carriage of dangerous goods by roads regulations.

In 2014 OKT TRAILER presented its new project - Livestock Semi-Trailer that is produced according to world production processes and Turkish conditions, taking in consideration customer and sector needs. OKT TRAILER is first and the only one Livestock Semi-Trailer manufacturer in Turkey.

In 2015 OKT TRAILER presented its new project – new generation Milk Tanker Semi-Trailer that is produced as monoblock body on the chassis instead of the old type independent from each other compartments. New Generation of Milk Tanker is ergonomic and provides ease of usage of the equipment.

In line with the growing needs, OKT TRAILER has been performing new investments and expanding factory areas. Today, Together with 20,000 m² of covered production area and staff with 200 people, company has gained a place among the industry's leading manufacturers.

OKT TRAILER became one of the rare Turkish brand making an impression worldwide by shaping certification and institutionalization processes and integrating total quality philosophy with its mission adopted since 1983 while standing behind the promise of the brand with road transport solutions in such areas as petroleum and chemical derivatives, construction industry, concrete, aggregates and food transport.
